

# **MY DAD**

**BY: Michael Kiger**

If you think your dad is the best dad wait until you meet mine! I believe My dad is great because he does really fun things with me, like shooting hoops, play golf, (his favorite), and catch. He also helps me get better. My Dad taught me how to play basketball, how to throw a football, play golf, and play baseball. He also helps me with my academic needs like helping me with my homework.

My Dad has a great sense of humor because he laughs at almost all my jokes even if there not funny. Apparently he's funny with the adults because I hear my dad say something and they all laugh.

My Dad encourages me to do great things and achieve high goals. He is out of this world because he tries and does new and fun things with me. My Dad is so fun because he takes us on the most exciting trips ever, like for my Birthday we went to the Missouri Valley Conference Tournament for College basketball. That was the best weekend ever!

These are the reasons why my dad is the best dad ever, oh yeah, he keeps all of his promises.
